32.4 months	\$64.76	\$139,131	5,174

KEY BUSINESS INSIGHTS

- Overall churn is 26.54%, representing 1,869 customers.
- Month-to-month customers have a 42.71% churn rate, compared with only 2.83% for two-year contracts.
- Customers within their first 12 months have the highest tenure-based churn rate at 47.44%.
- Fiber-optic customers have a 41.89% churn rate and require further pricing and service-quality investigation.
- Electronic-check customers have the highest payment-method churn rate at 45.29%.
- Customers without technical support have a 41.64% churn rate.

BUSINESS RECOMMENDATIONS

- Strengthen onboarding and engagement programs during the first 12 months.
- Offer incentives to move suitable month-to-month customers to one-year or two-year contracts.
- Review fiber-optic pricing, service reliability and customer-support experiences.
- Encourage electronic-check customers to adopt automatic bank or credit-card payments.
- Bundle technical support and online security with high-value internet plans.
- Provide simplified billing communication and targeted assistance for senior customers.
